

PortaDot Spring Balancer

The spring Balancer for Pryor's PortaDot handheld dot peen marking machine provides easy access and safe storage of the machine away from accidental damage or breakage. It is an ideal solution for assembly lines where there is limited tool storage.

- Compatible with Pryors PortaDot with a 50 x 25mm marking window.
- Ideal for use on production lines
- Ideal where tool storage is limited

Overview

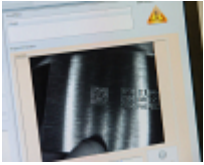

Simply hang your hand held PortaDot marking machine from the spring Balancer for easy and safe access to the tool on production lines. The Balancer is ideal when space for tool storage is minimal, or for preventing accidental damage by knocking the machine off a bench or damage caused by droppages.

- Easy access to marking machine
- Safe storage of PortaDot
- Prevents accidental damage to marking machine

Our Solutions

- Traceability Software & Data Capture
- Automated Part Marking
- Aerospace Marking Standards
- Automotive VIN Marking
- Hand Tools for Marking & Identification
- Serial Number Marking
- Logo Marking
