

Packaging Embossing Type

Packaging Embossing Type are individual characters, figures or symbols of your own font and design on custom designed pieces of type. These speciality marking tools are designed and manufactured by Pryor so that you aren't limited to buying types from expensive machine manufacturers. Packaging type is ideal for use on cartons, food packaging, cosmetics and pharmaceuticals, and can mark on many materials including metal, wood, leather, plastic and rubber.

- Bespoke designed individual inscriptions
- Ideal for use on cartons, food packaging, cosmetics and pharmaceuticals
- Can mark on many materials including metal, wood, leather, plastic, and rubber
- Custom designed blank

Overview

Packaging Type are individual pieces of bespoke type. They create variability in the overall inscriptions that you are able to mark.

The shape, size and overall design of both the mark and the type blank are all bespoke, providing you with a product that fits into your existing set and machine. This saves you from having to source additional pieces from your existing machine manufacturer, which can be costly. If you send Pryor a sample, we can create it all for you. We have extensive experience in creating type for users of IWKA, Marchesini and Norden machines.

- Individual characters allow for variable inscriptions
- Designed to fit your existing machine so that you don't have to purchase from expensive machine provider
- Blank design done inhouse by Pryor's experienced team
- Inscription design and layout service also offered by Pryor
- Extensive experience in creating type for users of IWKA, Marchesini and Norden machines

- Traceability Software & Data Capture
- Automated Part Marking
