

## V Mask

The Pryor V Mask is a fixture that assists when marking curved surfaces with a PortaDot handheld engraving machine. Prevent accidental movement of the marking device when marking by simply attaching the V mask to the machine to enable secure placement on curved surfaces.

- Prevent accidental movement when marking curved surfaces
- Simple to attach

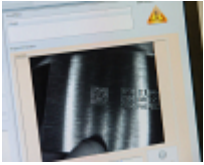

### Overview

### Our Solutions

- Traceability Software & Data Capture
- Automated Part Marking
- Aerospace Marking Standards
- Automotive VIN Marking
- Hand Tools for Marking & Identification
- Serial Number Marking
- Logo Marking
- Production Data Monitoring
