

Steel Type Press Holders

Machine Holders and Shanks for use with Steel Type are available for Press marking to allow faster throughput.

Each style offers a wide choice of one and multi-line options with various capacities to suit Type sizes 1.0, 1.5, 2.0, 3.0, 4.0 and 5.0mm.

Machine Holders are designed to provide accurate Type location and positive locking combined with ease of use and durability. The Steel Type is secured in place by means of a grub screw (Allen wrench supplied).

Check the Measurement Guide in the Downloads tab below to see Pryor, Imperial and Euro Type sizes.

Overview

Machine Holders for Interchangeable Steel Type

Faster throughput of marked components can be achieved by using Interchangeable Steel Type in a Press. The Pryor range of Machine Holders are provided as two piece units, a Body & Shank for maximum flexibility.

Our Solutions

- Traceability Software & Data Capture
- Automated Part Marking
- Aerospace Marking Standards
- Automotive VIN Marking
- Hand Tools for Marking & Identification
- Serial Number Marking
- Logo Marking
- Production Data Monitoring

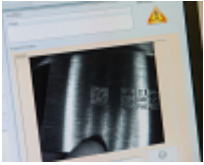

Type pieces 1.0mm, 1.5mm, 2.0mm, 2.5mm, 3.0mm, 4.0mm and 5.0mm are hold firmly in place by means of a grub screw (Allen wrench supplied) for safety in use.
